Loms provide a good option for a candidate who needs to focus on improving their problem solving case and lacks real-world experience and examples on how to do so. In these audio files, Victor Cheng interviews a variety of candidates in both Interviewer-LED and Candidate-LED interview formats. Is it the best interview preparation program in the market? It would have been nice if the program had a curriculum to teach exactly what to do and what to say at each stage of the interview. If you think about the price of the program this way, the price might not seem high. It would have been more helpful to see candidates using a wide range of different strategies and techniques to see which ones perform best. This material is best for an applicant with a business background, who already knows the basic financial terms, and who does not require help with understanding the consulting career. Learning the difference between poor and big-case interview performances in the program, Cheng provides detailed comments on each candidate's performance at each stage of the interview. This is the perfect book for beginners who are looking to learn the basics of case interviews quickly. In this full review of the look on my shoulder program, we answer all these questions and more. However, there are many free YouTube interview videos you can watch to get most of the benefits you would get from purchase of Look Over My Shoulder program. Variety cases The eight cases covered by the program cover a variety of different sectors. The biggest flaw of Look Over My Shoulder Ć is that it is a passive program in which you learn by listening instead of actually doing. LOMS interviews were extremely structured, while I found that my interviews (including the second round with Bain and BCG) were much more conversational. Ć (Review from WallStreetOasis) Ć Nothing will be More useful than practicing with the right partners. Especially if you haven't done many cases before, you can really give yourself an idea of the flow of an interview, what/how to ask questions and, perhaps, what more important, what are many of the common pitfalls for candidates. Ć (Review from PrepLounge) Ć LOMS Ć was the best educational resource for developing skills and best practices for interviews. LOMS. Case Interview Secrets and other sources were not helping me anymore. This made me get rejected at a BCG final round last semester. I always felt that something was missing in my study, an exhaustive and organized way to prepare for cases. Every time I would read case interview material on the internet, I'd be met with anguish for thinking I didn't have the time for all that, not to mention having no idea where to start. CraftingCases seems to have found a way to minimize this agony faced by many and teaches efficient practice routines to improve in your cases and even help you start out from scratch. 11 At first, her father was against her studying abroad, but later on he had a change of and let her go to Paris.
